TOPICS COVERED

- SMS texting
- Barcode scanning
- WiFi, Bluetooth
- Speech recognition and TextToSpeech
- Database and custom web-database connectivity (aka cloud storage) Audio/Video media

- Web connectivity
- Social site connectivity

WHAT IS APP INVENTOR?

APP INVENTOR- App inventor is a software or an Integrated development environment (IDE) , using which any one can make their own android app without any programming skill. Here at "Curiosity Labs" we teach you how to use app inventor to make different kinds of app based on your creativity.

Note : All the above components would be provided during the program to participants in groups of 5
